

1. This Command Directive (CD) rescinds **CD 029.1**. All Eielson-based military and TDY personnel must follow this CD, and I expect all members of the Eielson AFB community to follow this directive. Military members who fail to follow this directive are subject to disciplinary action. Civilians who fail to follow these directives may be barred from the installation. Updates highlighted.

Vaccines are available in the Eielson AFB Immunizations Clinic via walk-in service from 0800-1600 (M-F).

<http://dhss.alaska.gov/dph/Epi/id/Pages/COVID-19/Vaccineappointments.aspx>

Quick-reference handouts are available at <https://www.eielson.af.mil/coronavirus/>

If you develop COVID-19 symptoms, contact the 354 MDG at (907) 377-1847 option #1.

2. **354 FW/CC Guidance**

a. For the purposes of CD 030, Personnel are “fully vaccinated” 2 weeks after the second dose of a two-shot series or 2 weeks after one dose in a single shot series.

b. Continued Mitigation Measures:

- All personnel will wear masks while indoors if unable to maintain six foot physical distancing. Personnel may remove masks to don PPE or to conduct physical training with six feet of distancing.
- Must wear masks in vehicles with individuals outside their household.
- Any personnel that experience COVID-19 symptoms will immediately notify their **chain of command**.

c. Off-base delivery services are permitted as follows:

- Non-routine commercial and contractor delivery vehicles must be sponsored on base in-person or by calling the Visitor Center at (907) 377-3807.
- Delivery drivers will proceed directly to delivery locations then depart the installation.

d. Isolation: Any person DIAGNOSED with COVID-19 must remain physically isolated until the date directed by 354 MDG and COVID-19 symptoms have resolved.

e. Quarantine: Personnel identified by 354 MDG as a “close contact” of a diagnosed COVID-19 individual:

- i. **Must remain in quarters for 5 days, starting on the last date of exposure as determined by Public Health.**
- ii. **Close contacts do not quarantine if they are fully-vaccinated in the last 6 months by an mRNA vaccine (e.g. Pfizer or Moderna), received an mRNA booster dose in the last 6 months, or have received a Johnson and Johnson vaccine or booster dose in the last 2 months.**
- iii. Quarantine is an alternate duty location, not leave. **If practical, “close contacts” test 3-5 days after exposure.**
- iv. **Unit commanders** may adjust quarantine protocols based on mission requirements and assessed COVID-19 risk.

f. Travel Restriction of Movement (ROM): All personnel must follow current ROM guidance as outlined at <https://www.eielson.af.mil/coronavirus>. Unit commanders may tailor ROM specifications.

g. Gathering Size Limitations:

- i. Eielson-based military personnel may attend gatherings up to 50 persons, on or off-base, with appropriate distancing and mitigation controls in place. Unit commander approval is required for larger gatherings.
- ii. Unit physical training, group physical training, and team sports are authorized and encouraged under the above group size limitations. Masks are required for indoor physical training and sports if six feet of distancing cannot be maintained.
- iii. Religious services are exempt from these limitations.
