

EIELSON AFB MEDICAL QUARANTINE GUIDANCE

9 Apr 21

Stop the Spread – Remain Fully Mission Capable

What: Mandatory Procedures for Individuals Placed in Medical Quarantine

Who: Any non-fully immunized person having contact with a diagnosed COVID-19 person, as identified by contact tracers

When: Immediately upon direction of command or medical personnel

MEDICAL QUARANTINE PROCEDURES:

- **This applies to any non-fully immunized person identified by contact tracing to have been exposed to a person diagnosed with COVID-19:**
 - You must physically separate from others for 10 days, including unexposed household members.
 - This virus has an incubation period of up to two weeks. During that time, you may never develop symptoms of illness but could still carry and transmit the virus!
- Fully immunized personnel with no COVID-19 symptoms are not required to quarantine or be tested after exposure to a COVID-19 positive or suspected positive individual.
 - Personnel are “fully immunized” 2 weeks after the second dose of a two-shot series or 2 weeks after one dose in a single-shot series.
- Your 10-day quarantine starts from the date of last exposure to a diagnosed COVID-19 person.
 - You must remain in your domicile/designated quarantine location, except to seek medical care.
 - Dorm residents or others that cannot physically separate in their domicile will be directed to alternate lodging by their unit.
 - Food and other necessities will be coordinated through your unit using contactless delivery.
 - **Visitors are not allowed to enter a quarantine room/home.**
 - ***This is your alternate duty location. You are not on leave.***
- Prevent the potential spread of COVID-19 during your 10 day quarantine.
 - Avoid close contact with others, including family members (being within 6 feet).
 - Do not share common living spaces or personal items (i.e. bedroom, bathroom, etc.).
 - Practice enhanced hand hygiene and home sanitation practices.
- If you develop any flu-like symptoms, fever of greater than 100.4°F, a cough, or difficulty breathing you will immediately isolate yourself and call 907-377-1847 to receive further guidance. ***For emergencies call 911.***

NOTE: You cannot “test out” of or shorten a medical quarantine!

Return to work modifications for asymptomatic, mission essential personnel may only be granted by the first General Officer in the chain of command per Force Health Protection Guidance.

*If you develop any COVID-19 symptoms (fever, cough, or other flu-like symptoms), **DO NOT GO TO WORK.** Isolate yourself from others, inform your chain of command, and contact the 354 MDG at (907) 377-1847.*

NOTE: For all emergency situations call 911
